Context

*A promising future is only possible if our young people
“learn to be Leader”*

Globally, the framework for 21st century learning has recognized the need to interweave leadership skills with basic education. Research has now established that students with exposure to leadership skills have shown better learning outcome.

The founders of the Foundation for Capability Building (FCB), a not-for-profit organization recognized this unmet need and ventured to create its flagship program **“LEAAD - Leadership Enrichment for Adolescents through Assessment & Development.”**

Our aim is to design and offer capability building initiatives for various stakeholders from all strata of the society. Developing leadership capabilities is our prime focus.

Vision

“Nurturing New Generation Leaders”

Our mission

Fostering leadership amongst adolescents by providing opportunities to
Discover - Develop - Demonstrate
their unique abilities for creating and sustaining ethical leadership in society.”

LEAAD also believes that demonstration of leadership traits is the key to success in one's chosen domain and that leadership traits can be developed during Adolescence stage. Adolescent age is an important time for leadership growth. Increase in leadership in adolescence can reinforce self esteem and be catalyst for flourishing adulthood.

THE CORE GOAL OF THE LEAAD IS

- **TO NURTURE YOUNGER GENERATION TO DEVELOP AND DEMONSTRATE LEADERSHIP SKILLS IN ALL ACTS AND DEEDS.**
- **TO BUILD CONFIDENT, COMPETENT AND ETHICAL INDIA.**

LEAAD Awards

**“Develop your leadership potential,
- a common denominator for success...”**

LEAAD believes that differentiating factor for success is not higher numbers in education alone, but how one demonstrates leadership in chosen sphere.

Leadership requires practice and there are very few opportunities for students to practice. Some of the challenge is simply structural. Since only one person can lead at a time so it is difficult to create opportunities for every one in a group to practice. LEAAD Awards provides platform to students to **Discover - Develop - Demonstrate** their leadership potential.

LEAAD Awards are organized to encourage students, parents and educators for inculcating penchant for leadership every year for high school students.

After a huge success of 4 editions, LEAAD is back with the year's most awaited awards.

5th LEAAD Awards are for the first time inviting students from whole Gujarat.

This award are open for **8th to 11th** Grade. it is divided into 2 groups

Group 1 : 8th & 9th Grade

Group 2: 10th & 11th Grade

LEAAD 4c Model

LEAAD strongly focuses on sustenance through assessment and continuous development. Based on this operating philosophy, extensive pilot research for 4 years and taking lot of inputs from globally renowned Positive Youth Development Framework of Richard M. Lerner;

LEAAD conceived the 4C Model-

Character - Confidence -
Collaboration - Competence
to develop leadership capabilities amongst adolescents.
